This includes descriptive or promotional material which links or relates, directly or indirectly, Supplier's product line, manufacturing facilities, or manufacturing capabilities to performance of naval nuclear propulsion work. As part of the approval request, Supplier shall identify the specific media to be used as well as other pertinent details of the proposed release. All releases, regardless of tier of supplier, must have the prior approval of Buyer.

Should any information described above be requested, subpoenaed, or otherwise sought by a court or other judicial or administrative authority, this should be promptly brought to the attention of Buyer to permit appropriate measures to be taken to protect the information. Under no circumstances should this information be released to such authority without prior notification and agreement of

the Buyer.

Supplier agrees that this requirement of prior Buyer approval of any release shall survive the purchase order and that Supplier shall not for a period of twenty years after issuance of this purchase order, either directly or indirectly issue any such release without requisite approval of Buyer, its successor or assignee.

Supplier shall include all provisions of this article including this sentence in all lower tier contracts under this order.

This order may be assigned by Buyer to the Government or any designee of the Government, provided that written notice thereof is given to Supplier. Buyer shall be entitled at all times to set off against any amount payable at any time by Buyer under this order, any amount owing at any time from Supplier to Buyer whether arising under this order or other purchase orders with Supplier.

CHOICE OF LAW

This order and any and all matters of disputes between the parties to this order whether arising from the order itself or from alleged extra contractual facts, during or subsequent to the contract shall be governed by construed, and enforced in accordance with the law of U.S. Government contracts as set forth by statute and applicable regulations, and decisions by the appropriate courts and Board of Contract Appeals. Any such request by Supplier shall clearly reference this clause and shall summarize the facts in dispute and Supplier's proposed resolution of the dispute.

Buyer shall, within 60 calendar days of any request by Supplier, provide a written final determination setting forth the contractual basis for its decision and defining what purchase order adjustments it considers equitable. Upon Supplier's written acceptance of Buyer's determination the purchase order will be modified and the determination implemented accordingly. If Buyer's final determination is not accepted by Supplier, the matter shall, within 30 calendar days, be referred to senior executives of the parties who shall have designated authority to settle the dispute. The parties shall promptly prepare and exchange memoranda stating the issues in dispute and their respective positions, summarizing the negotiations that have taken place and attaching relevant documents.

If the matter has not been resolved within 30 days of the commencement of such negotiations, the parties agree to consider resolution of the dispute through some form of Alternative Dispute Resolution (ADR) process which is mutually acceptable to the parties. Should the parties agree to pursue an ADR process each party will be responsible for its own expenses incurred to resolve the dispute during the ADR process. If the parties do not agree to an ADR process or are unable to resolve the dispute through ADR, either party shall then have the right to pursue any legal remedy consistent with other terms of the purchase order. ORGANIZATIONAL CONFLICT OF INTEREST (NAVSEA) (JUL 2000)

- (a) "Organizational Conflict of Interest" means that because of other activities or relationships with other persons, a person is unable or potentially unable to render impartial assistance or advice to the Government, or the person's objectivity in performing the purchase order work is or might be otherwise impaired, or a person has an unfair competitive advantage. "Person" as used herein includes Corporations, Partnerships, Joint Ventures, and other business enterprises.
- (b) The Supplier warrants that to the best of its knowledge and belief, and except as otherwise set forth in the purchase order, the Supplier does not have any organizational conflict of interest(s) as defined in paragraph (a).
- (c) It is recognized that the effort to be performed by the Supplier under this purchase order may create a potential organizational conflict of interest on the instant purchase order or on a future acquisition. In order to avoid this potential conflict of interest, and at the same time to avoid prejudicing the best interest of the Government, the right of the Supplier to participate in future procurement of equipment and/or services that are the subject of any work under this purchase order shall be limited as described below in accordance with the requirements of FAR 9.5.
- (d) (1) The Supplier agrees that it shall not release, disclose, or use in any way that would permit or result in disclosure to any party outside the Government any information provided to the Supplier by the Government during or as a result of performance of this purchase order. Such information includes, but is not limited to, information submitted to the Government on a confidential basis by other persons. Further, the prohibition against release of Government provided information extends to cover such information whether or not in its original form, e.g., where the information has been included in Supplier generated work or where it is discernible from materials incorporating or based upon such information. This prohibition shall not expire after a given period of time.
- (2) The Supplier agrees that it shall not release, disclose, or use in any way that would permit or result in disclosure to any party outside the Government any information generated or derived during or as a result of performance of this purchase order. This prohibition shall expire after a period of three years after completion of performance of this purchase order.
- (3) The prohibitions contained in subparagraphs (d)(1) and (d)(2) shall apply with equal force to any affiliate of the Supplier, any subcontractor, consultant, or employee of the Supplier, any joint venture involving the Supplier, any entity into or with which it may merge or affiliate, or any successor or assign of the Supplier. The term of paragraph (f) of this Special Contract Requirement relating to notification shall apply to any release of information in contravention of this paragraph (d).
- (e) The Supplier further agrees that, during the performance of this purchase order and for a period of three years after completion of performance of this purchase order, the Supplier, any affiliate of the Supplier, or any Supplier, consultant, or employee of the Supplier, or any joint venture involving the Supplier, any entity into or with which it may be subsequently merge or affiliate, or any other successor or assign of the Supplier, shall not furnish to the United States Government, either as a prime contractor or as a subcontractor, or as a consultant to a prime Supplier or subcontractor, any system, component or services which is the subject of the work to be performed under this purchase order. This exclusion does not apply to any re-competition for those systems, components or services furnished pursuant to this purchase order. As provided in FAR 9.505-2, if the Government procures the system, component, or services on the basis of work statements growing out of the effort performed under this purchase order, from a source other than the Supplier, subcontractor, affiliate, or assign of either, during the course of performance of this purchase order or before the three year period following completion of this purchase order has lapsed, the Supplier may, with the authorization of the cognizant Contracts Professional, participate in a subsequent procurement for the same system, component or

service. In other words, the Supplier may be authorized to compete for procurement(s) for systems, components or services subsequent to an intervening procurement.

- (f) The Supplier agrees that, if after award, it discovers an actual or potential organizational conflict of interest, it shall make immediate and full disclosure in writing to the Contracts Professional. The notification shall include a description of the actual or potential organizational conflict of interest, a description of the action which the Supplier has taken or proposes to take to avoid, mitigate, or neutralize the conflict, and any other relevant information that would assist the Contracts Professional in making a determination on this matter. Notwithstanding this notification, the Government may terminate the purchase order for the convenience of the Government if determined to be in the best interest of the Government.
- (g) Notwithstanding paragraph (f), above, if the Supplier was aware, or should have been aware, of an organizational conflict of interest prior to the award of this purchase order or becomes, or should become, aware of an organizational conflict of interest after award of this purchase order and does not make an immediate and full disclosure in writing to the Contracts Professional, the Government may terminate this purchase order for default.
- (h) If the Supplier takes any action prohibited by this requirement or fails to take action required by this requirement, the Government may terminate this purchase order for default.
- (i) The Contracts Professional's decision as to the existence or nonexistence of an actual or potential organizational conflict of interest shall be final.
- (j) Nothing in this requirement is intended to prohibit or preclude the Supplier from marketing the selling to the United States Government its product lines in existence on the effective date of this purchase order; nor, shall this requirement preclude the Supplier from participating in any research and development or delivering any design development model or prototype of any such equipment. Additionally, sale of catalog or standard commercial items are exempt from this requirement.
